2010 CAST-UT Annual Conference on Promoting Collaboration in Science, Technology, and International Business between the US and China:

I am delighted to learn that the 2010 CAST-UT Annual Conference on Promoting Collaboration in Science, Technology, and International Business between the US and China will be convened soon. I would like to extend, on behalf of the Embassy of the People's Republic of China in the United State, warmest congratulations to the organizers of the conference.

For years, the Chinese Association for Science and Technology in Utah has devoted itself to promoting unity, exchange and collaboration among Chinese scholars and professionals in the United States. It has initiated various programs to promote traditional Chinese culture and has done a great and commendable job in strengthening the cooperation between China and the United States in the area of science, technology, culture and education.

I wish the annual meeting a great success.
